IRI.CELL

The new IRI.CELL vandal resistant photocell cover has been designed to work with the well established PUPILLA photocell. The solid yet stylish cover is the finishing touch to your installation. Made from a strong material, the metal cover and back plate fits perfectly around the PUPILLA photocell whilst maintaining the 180 degree rotational lens. The best, just got better...

 **MADE IN ITALY**

**Solid metal back plate,
for use with PUPILLA photocell**
