ACCESSORIES/ GF60 - Vandal Resistant Door Loop

Product description

The range of door loops from CDVI offer a safe and secure method of transferring cables from a fixed point, such as door frame onto the door leaf.

All models have a metal loop for better protection, and all have a minimum internal diameter of 7mm which is sufficient to handle the most common cables used in door locking/control.

The GF60 is an external door loop with the "DiAx" anti vandal fixings and screws. Ideal for problem areas and harsh environments.

Key features

- 60cm length
- Cable/power management
- Easy to install
- 9mm internal diameter
- Economical and vandal resistant
